Important Notes About This Manual

Keep this manual in the glove box as a handy reference for the safe and enjoyable use of your Mazda. Should you resell the vehicle, leave this manual with it for the next owner.

All specifications and descriptions are accurate at the time of printing. Because improvement is a constant goal at Mazda, we reserve the right to make changes in specifications at any time without notice and without obligation.

Air Conditioning and the Environment

Whenever service to the air-conditioning system is required, make sure the service facility uses a refrigerant recycling system. These systems will capture the refrigerant for reuse. Releasing refrigerant into the atmosphere can damage our environment.
