

## Welcome To The TRS 25th Anniversary Fall Adventure

Thanks for joining us for the 25th anniversary of TheRangerStation.com (TRS). I created TRS in 1999 as an online resource for Ford Ranger owners. While it's great connecting with Ford Ranger owners online, it's even better when we can connect in person!

Please find included in this envelope:

- (1) TRS 25th Anniversary Sticker
- (1) TRS 25th Anniversary KeyChain Bottle Opener
- (1) Door Prize Ticket (attached below)

The other half of your door prize ticket has already been placed in a drawing container to ensure that we have everyone's ticket. The door prize drawing will be held Saturday evening (time to be announced).

## Forest Road 318 Challenge

While exploring forest roads, Robert Mangrum and Jim Oaks were looking for a road that was less maintained and more challenging. They found it on Forest Road 318. It took them through mud, deep ruts, woods, a grassy pasture and a corn field. They needed the GPS at points to figure out where the road went and it took an hour to travel the 2-miles. Forest Road 318 connects Forest Road 139 and Forest Road 140. If you want a challenge, the starting coordinates are 36°51'00.5"N 88°05'58.4"W.
